# NO Wasps Nest Killer

## Benefits and Features

- Easy application to wasp nests and nest entrances.
- Eliminates wasp nests.
- Ready to use aerosol for easy application.
- Sprays up to 4 metres.
- For use outdoors.

## Controls

- *Vespula vulgaris* – [Common wasp](#)
- *Vespula germanica* – [German wasp](#)
- *Polistes chinensis* - [Asian paper wasp](#)
- *Polistes humilis* - [Australian paper wasp](#)
- *Polistes dominula* – [European paper wasp](#)

## Directions

### For wasps

1. From a safe distance watch the wasps for a few minutes to identify the nest location\*.
2. Shake can well before use. Hold can in an upright position.
3. Stand a safe distance from the nest (at least 2m) and not directly underneath. Use a sweeping motion to saturate the nest.
4. Check again several hours later. If there is still activity, repeat the application.

\*NO Wasps Nest Killer Aerosol works best on nests in the open. The entrance to wasp nests that are in the eaves of a house or in a hole in the ground may be some distance from the entry point such as the gap at the eaves. This makes it difficult for the spray to reach the nest. In such a cases, consider the NO Wasps Eliminator Powder which can be puffed into the entrance and reaches the nest more easily and wasps carry the powder into the nest on entry.

## For Best Results

To assist in eradicating Wasps, use as part of the Kiwicare 1-2-3 Wasp Control Programme.

1. SEARCH: For and find Wasp nests.
  2. DESTROY: Apply Kiwicare NO Wasps Eliminator OR Kiwicare NO Wasps Nest Killer Aerosol spray to the entrance of Wasp nests.
  3. PROTECT: Spray Kiwicare NO Wasps Total Protection Spray on surfaces around fences, decks, walls, window frames etc. where Wasps are seen landing.
- Wasps are less active in low light; to avoid stings apply spray just before dusk or just after dawn.
  - Apply when Wasp nest entrance is dry, and rain is not expected within 2 hours.
  - Wear protective clothing when treating nests (bee veil, hat, long sleeved overalls and gloves).

## Active Ingredients

1.3 g/kg d-Allethrin and 1.2 g/kg d-Phenothrin.

## Registration

EPA Approval Number: HSR007671

## Caution

Keep out of the reach of children. NO Wasps Nest Killer spray should not be used around plants in flower or about to come into flower due to risk to bees and it cannot be used on bee nests. Do not eat or smoke while using. Wear waterproof gloves when applying.

## Available As

- 350 g aerosol.

## Complementary Products

- [NO Wasps Total Protection](#) surface spray, concentrate and ready to use.
- [NO Wasps Eliminator](#) powder puff pack.
