The Swivel spout provides space, flexibility and ease of use.

Chrome Plate

A base of copper is first applied followed by a layer of nickel and then finally a hard gloss coating of chromium to achieve a shiny hard wearing finish.

Blackened Oil Bronze: Black

Parts are firstly nickel plated then blackened oxidation process to apply the base colour. and a transparent liquid polymer is applied achieve a mat finish and hardened surface.

Electroplated: Gun Metal

Electrical current is used to dissolve components into Lacquer that then adhere to the surface.

Electroplated with PVD: Brushed Nickel

Electrical current is used to dissolve components into Lacquer that then adhere to the surface. A thin metal-spray coating in the form of very thin layers is finally applied using PVD process.

Electroplated with PVD: Brushed Brass

Electrical current is used to dissolve components into Lacquer that then adhere to the surface. A thin metal-spray coating in the form of very thin layers is finally applied using PVD process.

The Uno collection offers a glamorous look without being too ostentatious. After years of chrome dominating as the must-have metal, there has been a move away from the high shine, perfect finish of Chrome towards finishes like Brushed Nickel, Gun Metal, Black and Brushed Brass.
