Mains Pressure

Suitable for Mains Pressure.

Flawless Finish

Advanced plating provides a durable surface with a long lasting finish

	Effortless Control	Advanced cartridge technology provides a wide operating angle and smooth operation
	Smooth Flow	Aerator reduces scaling while delivering a smooth even flow
	Indicators	Includes standard and coloured indicators.
	Forward rotating handle	Forward rotating handle prevents the lever hitting the splashback.
	Pull Out Spray	Make life easier with a pull out spray.
	Swivel Spout	The Swivel spout provides space, flexibility and ease of use.
	Chrome Plate	A base of copper is first applied followed by a layer of nickel and then finally a hard gloss coating of chromium to achieve a shiny hard wearing finish.
	Blackened Oil Bronze: Black	Parts are firstly nickel plated then blackened oxidation process to apply the base colour. and a transparent liquid polymer is applied achieve a mat finish and hardened surface.
	Electroplated: Gun Metal	Electrical current is used to dissolve components into Lacquer that then adhere to the surface.
	Electroplated with PVD: Brushed Nickel	Electrical current is used to dissolve components into Lacquer that then adhere to the surface. A thin metal-spray coating in the form of very thin layers is finally applied using PVD process.
	Electroplated with PVD: Brushed Brass	Electrical current is used to dissolve components into Lacquer that then adhere to the surface. A thin metal-spray coating in the form of very thin layers is finally applied using PVD process.

The Uno collection offers a glamorous look without being too ostentatious. After years of chrome dominating as the must-have metal, there has been a move away from the high shine, perfect finish of Chrome towards finishes like Brushed Nickel, Gun Metal, Black and Brushed Brass.
