

Code	Description	Size	Colour
39155	Gorilla H-Packers Click n Fix 1.5mm	100 pk	Yellow
39156	Gorilla H-Packers Click n Fix 2.0mm	100 pk	Orange
39157	Gorilla H-Packers Click n Fix 3.0mm	100 pk	Red
39158	Gorilla H-Packers Click n Fix 5.0mm	100 pk	Blue
39162	Gorilla H-Packers Click n Fix 6.0mm	100 pk	Black
39159	Gorilla H-Packers Click n Fix 10.0mm	100 pk	Green

1. Description

Gorilla H-Packers Click n Fix provide accurate spacing and positioning of building elements.

2. Characteristics

- Virgin Plastics Used
- Stackable to create any thickness
- Snappable
- Can be mechanically fixed
- Durability of at least 15 years under normal use.

3. Technical Data

Visual:	Solid Form
Material:	80% HDPE (High Density Polyethylene) / 20% HIPS(High Impact Polystyrene)
Length:	96mm
Width:	46mm
Soft Point:	100°C
Melt Point:	120°C →130°C
VOC:	N/A

4. Applications

- Creating effect consistent spaces between substrates.
- Shim packing for windows and doors
- Packing out, and levelling out uneven surfaces

5. Packaging

Cardboard Box, 100 pack.

Remark

The directives contained in this documentation are the result of our experiments and of our experience and have been submitted in good faith. Because of the diversity of the materials and substrates and the great number of possible applications which are out of our control, we cannot accept any responsibility for the results obtained. In every case it is recommended to carry out preliminary experiments.

If any clarification is required, please contact Soudal Technical Services or email sales@soudal.co.nz.
