

MODERNO

CARBON INFRARED HEATERS

Moderno carbon infrared heaters generate heat only when required, allowing you to enjoy immediate warmth and comfort. There is no longer the need to pre-heat the air or risk the escape of unwanted air.

The Moderno^{mini} with an output of 1200W seamlessly blends in with its elegant surroundings and is ideal for smaller indoor/outdoor spaces including bathrooms.

Moderno carbon infrared heaters are compact in design and look great wall mounted or ceiling mounted and are increasingly popular as they can accommodate all living spaces.

Features

- Can be mounted horizontal or vertical.
- Do not burn oxygen, creating an extremely efficient directional heat.
- They do not require the refilling of gas bottles, which can run out at inconvenient times.
- Odour and CO2 emission free.
- Not affected by wind or air movements.
- Periscopic remote control - can be controlled from a long distance and wide course.
- Automatic temperature control regulates power consumption based on your set temperature and eliminates annoying hot and cold cycles.
