LEAK ALERT™ WATER DETECTOR

ZN-WD100

Electronic Water Detector

Prevent serious water damage with help from the Leak Alert™ water detector. This self-contained battery-powered unit will sound a loud alarm the second it gets wet, alerting you to a potential water leak.

Place it anywhere the potential for flooding or leaking exists:

- Under sinks
- Near water heaters
- In basements
- Near dishwashers and refrigerators
- Under fish tanks
- Near plumbing and toilets

HOW DOES IT WORK?

The Leak Alert™ has two external metal strips with mild electrical current running through them. If both strips get wet, through a plumbing leak, flood, or surrounding moisture condensing on the surface, the electrical circuit will complete and the alarm will sound.

Make sure the Leak Alert™ is placed on its back with the metal contacts touching the surface. You can test the unit by touching both strips with one finger, but be prepared for the loud alarm!

FEATURES

- Loud alarm (90 dB) sounds with direct water contact
- Floats and signals for the life of the battery
- Fully automatic operation — no wiring required
- Low battery indicator for optimum safety and performance

BARCODE:	042186706741
DIMENSIONS:	35mm x 61mm x 109mm
WEIGHT:	69g (without battery)
BATTERY TYPE:	9V alkaline (not included)
LOW BATTERY:	Unit will beep to indicate
SOUND INTENSITY:	90 dB
OPERATING TEMP:	-7° to 41°C
STORAGE TEMP:	-29° to 66°C
HUMIDITY:	5 - 90% RH (non-condensing)
SHOCK RESISTANCE:	From 1.8m drop on concrete
WATER RESISTANCE:	Splash proof, not waterproof. Floats on surface if battery is installed correctly.
